| NAS 29 |  |  |  |  | The site is currently a campus of the West Herts <br> College including Sixth Form College. There are <br> likely to be significant development costs <br> associated with demolition of the campus. Were <br> the site to come forward for development, it would <br> be capable of producing a large scale residential <br> scheme. Likely to prove attractive to national |  |  |  |
| housebuilders and likely to be able to achieve |  |  |  |  |  |  |  |  |
| decent values. Northern end of the site borders the |  |  |  |  |  |  |  |  |
| railway line and there may be some planning |  |  |  |  |  |  |  |  |
| consideration with noise and also rights to light and |  |  |  |  |  |  |  |  |
| overlooking issues from surrounding residential |  |  |  |  |  |  |  |  |
| properties. The loss of open space and playing |  |  |  |  |  |  |  |  |
| fields may also be an issue. (Development brief is |  |  |  |  |  |  |  |  |
| drawn up for the site). |  |  |  |  |  |  |  |  |

|  |  | M-H | H |  | The site is currently a three storey Council estate in <br> good condition with green open grounds. Developer <br> interest in intensification by adding additional |  |  |
| storey. The site is likely to prove attractive to a |  |  |  |  |  |  |  |
| local or regional housebuilder or even a national |  |  |  |  |  |  |  |
| housebuilder. |  |  |  |  |  |  |  |
